

ST 700 TURF TYPE PERENNIAL RYEGRASS

ST 7000 is the result of many years of turf breeding. It is an excellent choice for high performance sports fields where a wear resistant, winter active turf is required.

Features:

- Australian grown
- Improved heat resistance
- Dark green colour with fine texture
- Strong wear tolerance
- Good cold tolerance
- Strong recovery from injury

Sowing Rate:

- New Seeding: 3-5kg /100sqm

ADAPTION:

ST 7000 is a high performance fine leaf ryegrass variety ideal for sports fields, golf fairways, home lawns and general turf areas. ST 7000 will establish in 4–7 days under ideal conditions and the first mowing should be 14 days after emergence
