

DROUGHT MASTER LAWN SEED BLEND

WITH FERTILISER
AND GRANULAR
WETTING AGENT

PACK SIZE: 5KG, 10KG, 20KG

Ideal for home lawns, or landscaped areas where drought tolerance is required.

Combines drought tolerant cool season grasses as well as summer hardy couchgrass.

The addition of Wett-Up granular wetting agent will greatly improve water penetration during establishment and assist water penetration into difficult to wet soils.

Starter Fertiliser will provide the required nutrients to enhance strong seedling vigour.

Seed Mixture By Count:

- 40% Perennial Ryegrass
- 40% Annual Ryegrass
- 20% Turbocote Couch
- 10% (by weight) Starter Fertiliser
- 20% (by weight) Granular Wetting Agent

Application:

- New Sowing: 4-5kg/100m²
- Oversowing: use approx half new sowing rate

Ten steps to a great lawn:

- 1 Remove any undesirable grass types or weeds.
- 2 Lightly till soil if necessary.
- 3 Add a quality soil such as sandy loam where required to a depth of 100-150mm. Remember your lawn will only perform as well as the soil it is grown in.
- 4 Level area in preparation for seeding, allowing sufficient fall for water run off.
- 5 Carefully measure your area, (length x width) to ensure you have the correct amount of seed for your project. Remember insufficient seed could result in a sparse lawn.
- 6 Apply a suitable turf starter fertiliser (NPK) to ensure your young seedling has sufficient nutrient to establish.
- 7 Carefully select your lawn seed taking into account your desired objectives. Sow seed at the recommended label rates. Better results are NOT gained by using excessive amounts.
- 8 Lightly rake and or roll the area to ensure your seed is in contact with the soil. Be sure not to bury your seed, 3-5mm depth is sufficient.
- 9 When your lawn requires mowing remember to remove only 1/3 of the leaf at any one time and follow suggested mowing heights.
- 10 To remain healthy and strong your lawn will require adequate amounts of fertiliser and watering. We strongly advise to over-sow your lawn 1-2 times per year to maintain a dense lawn.
