

SHEEP FESCUE

Sheep Fescue produces needle like leaves and has a bunch growth habit. It is popular for use in low maintenance applications such as golf course rough or shaded areas.

Features and Benefits:

Sheep Fescue provides durable, attractive turf under a range of mowing heights, soil conditions and growing environments. It establishes rapidly from seed, yet it is one of the lowest growing grasses commercially available. Sheep Fescue also exhibits excellent drought and heat tolerance. It was bred for low maintenance turf areas.
